PROFESSIONAL SUMMARY

Software Engineer with 1+ year at **Cappgemini** on enterprise-grade applications for **Disney**. Gained hands-on exposure to **ASP.NET Core, C#, Angular, Azure, and SQL Server** within a large-scale Agile team. Contributed to bug fixes, code reviews, and sprint deliveries. Independently built and deployed full-stack projects. **AZ-204 Azure Developer certified**.

EXPERIENCE

Software Engineer — Cappgemini Technology Services, Mumbai

Sep 2024 – Present

Client: **Disney** | Agile/Scrum Team

- Worked in an enterprise team building web applications using **ASP.NET Core, C#, Angular, SQL Server, and Microsoft Azure**.
- Participated in **code reviews and bug fixes** across backend API and Angular frontend modules, improving code quality and stability.
- Gained exposure to **REST API development** — understanding endpoint design, request/response handling, JWT auth, and SOLID principles through team collaboration.
- Assisted in **SQL Server query debugging**, learning optimization techniques including indexing, stored procedures, and Entity Framework Core.
- Observed and supported **Azure DevOps CI/CD pipelines**, gaining familiarity with automated build, test, and deployment processes.
- Collaborated with developers, QA, and product managers in **sprint planning, stand-ups, and reviews** in a professional enterprise environment.
- Worked daily with **Swagger, Postman, Git, Visual Studio, and Jira** for development, testing, and task tracking.

PROJECTS

Crop Deal — ASP.NET Core · Angular · SQL Server · Azure | [GitHub](#)
